FOR IMMEDIATE RELEASE

Sovereign Pipe Technologies Celebrates Two-Year Anniversary

Shawnee, OK – Sovereign Pipe Technologies, a leading high-density polyethylene pipe manufacturer in Shawnee, announces the company's second anniversary. This milestone marks the company as a trusted supplier for major infrastructure projects.

Since its founding in 2021, Sovereign Pipe Technologies has seen a significant increase in both production capacity and market reach. Reaching this occasion represents the company's commitment to providing superior quality products and its contributions to the sectors it serves, including construction, municipal water systems, and agriculture.

"Our journey over the past two years has been nothing short of remarkable," states Trey Cox, Inside Sales Coordinator. "Our growth is a direct result of the hard work and dedication of our team, and the trust and support of our customers and community."

With their extensive 50 years of experience within the HDPE arena of executive leadership, the experts behind Sovereign Pipe Technologies have propelled the company to its position as a leading manufacturer of high-density polyethylene pipe. They manufacture a wide range of HDPE pipe, from ¾" to 48" diameters, to cater to various project requirements. The company's product line includes energy services line pipe, water pipe, and sewer pipe.

Sovereign Pipe Technologies is committed to manufacturing environmentally friendly HDPE pipe that can withstand various pressures, temperatures, and harsh environments above and below ground. They are leak-free, durable, low-maintenance, and manufactured to be reliable for many years to come, ensuring a long-lasting investment for their customers.
